Concrete Products is the oldest and largest Ready Mix Concrete, Masonry Block, Paving Stone, and Landscape Wall producer in Newfoundland and Labrador. We have been dedicated to serving the concrete needs of our province for over seventy years. With a large modern fleet of ready mix trucks, stone slingers, concrete pump trucks, and a state of the art block and paver production facility, we are well equipped to continue this dedicated service.

Concrete Products is the only producer of Keystone Retaining Wall units in Eastern Canada. Keystone Retaining Walls set the worldwide standard for excellence and innovation within the segmental retaining wall industry. We are also the only producer in Newfoundland of retaining wall systems by RisiStone, the innovative creators of the Pisa2 retaining wall block. Concrete Products has diversified it's product line to include clay brick and stone veneer products through internationally recognized suppliers Brampton Brick, Permacon and Canyon Stone Canada. A relationship with Oaks Concrete Products, a Brampton Brick subsidiary company, has also been established to provide the Newfoundland market with an expansive range of paving stone products.

Concrete Products is a subsidiary company of Newcrete Investments, Newfoundland and Labrador's largest concrete company. Newcrete is comprised of a number of companies including:

Capital Ready Mix
Capital Precast
Concrete Products

City Concrete
Avalon Ready Mix
Central Precast & Ready Mix

Paving Stones

Make your outdoor living space as unique as you are.

From classic to modern, our paving stones come in a

a vast range of shapes, colors, textures and sizes,

providing the design versatility to transform your

landscape into whatever you can dream of.

Turn walkways, patios, pool decks and driveways

into timeless works of art that you will

cherish for a lifetime.

We manufacture our own lines of paving stones as well as retail three internationally recognized brands of paving stone products, through our suppliers Oaks Concrete Products, Permacon and Techo-Bloc.

Landscape Walls

Looking to optimize your outdoor living space? Our versatile line of structural, decorative and free-standing retaining wall products can be used to widen driveways, walkways, or create space in an outdoor patio area.

With a wide variety of colors, sizes and textures, our precisely manufactured products will allow your creative designs to become a reality. Build planters, garden borders, tree rings, lawn or sidewalk edging, pillars, or a fire pit to add instant curb appeal to your property. Aesthetic detail in design will put your home in a class all its own.

Splitface 19

Brampton Brick 20

Be.On Stone 22

Canyon Stone Canada 23

Masonry 24

We manufacture our own line of decorative splitface block as well as distribute internationally recognized brands of clay brick and stone veneer products.

Masonry

Beautify your home, enhance your commercial building and create the ultimate first impression with our broad selection of masonry products. Suitable for interior and exterior applications, our masonry products come in a variety of textures, colors, shapes and sizes, providing a medley of design options. Revamp your family room fireplace, create a memorable entranceway for your home, compliment your kitchen cabinetry with a stone backsplash, or accent your siding with an eye-catching brick chimney. We have everything you need for residential, commercial and landscape applications.

Available in a wide spectrum of colors, the splitface block allows a dance of sunlight and shadow to cross its face, creating an ever-changing and visually appealing exterior for any structure. Ideal for commercial and public buildings, with a textured surface.

We use RainBloc in all of our masonry and landscape products. The admixture is designed as a water repellent to reduce the impact of efflorescence.

Splitface Unit

Imperial: 3.5" h x 7.5" w x 15.4" l
 Metric: 95mm x 190mm x 390mm
 Wt. / Piece KG (lbs) - 12.5 (33.5)

Vivace stone is the first step toward a perfectly coordinated exterior package. Vivace's rich, bold colours, multiple sizes, and distinctive slate texture harmonize well with many of our clay brick and hardscape products, for the ultimate in prestige and curb appeal.

Complete-it

Concrete Products offers a wide variety of landscape edgings, whether residential or commercial. Common applications are landscape beds, maintenance beds, tree rings, flower beds, and crushed stone pathways.

1 ONE SAND

The only polymeric sand you need.

Available in 4 unique and natural colours

Absolute Black
- made of crushed granite

Canvas Beige
- made of regular sand

Granite Grey
- made of crushed granite

Urban White
- made of crushed quartz

Installing new walkways or building retaining walls takes more than just rearranging concrete paving stones and blocks. That's why Concrete Products carries an array of landscape accessories for Newfoundland homeowners, contractors, and businesses. We have it all, adhesives, jointing sands, landscape edging and geogrids for soil reinforcement. We can help by consulting with you on any residential or commercial job. Let our highly trained team help with your next landscape project.

Strata geogrids are used to reinforce soil with their high molecular weight and high tenacity polyester yarn. The yarns are precision knit into a dimensionally stable network of apertures providing tensile reinforcement capacity in both directions. Stratagrid is produced in multiple strengths in order to provide the most efficient design possible.

SG 200

SG 500

Surebond has engineered adhesives and sealants to exceed the stringent requirements of industrial fabrication, construction and roofing, to retaining walls, pavers and masonry. Surebond is an industry leader in the field of architectural landscape products with a full line of adhesives, sealers and cleaners.

TENCATE
Mirafi

Contractor Roll

Tencate Miragrid XT uniaxial geogrids are high performance woven polyester and polymer coated geogrids used for soil reinforcement. Tencate grids are used in Mechanically Stabilized Earth applications including internally reinforced walls, segmental retaining walls, and steepend slopes.

ReCon

Retaining Walls

Capital Precast manufactures structural retaining wall block under a license agreement with Recon Retaining Walls. Led by a team of engineers and quality control technicians, coupled with on-site testing laboratories, we produce only top-quality products and can meet the demands of any client.

Warranty / Terms and Conditions

Concrete Products 1-Year Warranty

Concrete Products maintains the highest quality standards in manufacturing with a tightly controlled, fully monitored production environment. Our products are guaranteed to be without material defect. Products deemed to be defective, will be replaced without cost to the customer. Replacement labour and shipping costs are not covered under warranty. Color matching of replacement products is not guaranteed. Each production run may vary slightly in color, even when using precise ratios of coloring agents, water, cement, sand and aggregates. The warranty is subject to normal 'residential' use conditions.

Limitations and Exclusions

The warranty does not apply to damage, deterioration or color change to the products resulting from:

1. Improper installation inconsistent with industry standards
2. Product discoloration from staining, improper sealing, pollution or abrasion
3. Use of chemicals for the process of de-icing
4. Breakage caused by overloading, impact or sub-grade settlement
5. Efflorescence

The warranty only applies to products manufactured by Concrete Products. For warranty information on the product lines we distribute, please visit the following supplier websites:

www.bramptonbrick.com

www.techo-bloc.com

www.permacon.ca

www.canyonstonecanada.com

www.beonstone.com

www.permaloc.com

www.brickstopedge.com

Industry Standards

Concrete Products meets or exceeds all industry standards including CSA A231.2 and A165 for the manufacturing of concrete products.

Shipping

Concrete Products requires a minimum of 24 hours notice for deliveries on in-stock items. Deliveries are made during normal working hours, Monday to Friday from 7am to 5pm. Concrete Products reserves the right to charge extra for unreasonable delays experienced in unloading on a jobsite.

Product Color

No guarantee is made on exact product color or blend. Customers are advised to purchase all product from the same production run to ensure consistency. Blended colors should be installed from more than one pallet at a time.

Efflorescence

Control measures are put into place to try and minimize efflorescence in all of our products. All masonry should use RainBloc ACM Mortar Admixture when mixing mortar. Efflorescence is not a material defect but a surface phenomenon--- as such, it is not covered under warranty.

Choosing the Right Contractor

You are about to invest in a long-lasting concrete product for a residential or commercial project. The quality of the finished product is highly dependent on the quality of the contractor selected for installation. Be sure to research several potential contractors, check for references from previous jobs, and request a warranty on the installation. Adherence to local building codes is necessary to ensure long-term durability of the products purchased.

Terms & Conditions

Any material returned will be subject to a 5% restocking fee, plus applicable delivery charges.

Pallet charge is \$20 each. This will be refunded for a \$15 credit, if returned in its original useable condition.
